TECHNICAL SKILLS

- Practiced in SCRUM and Agile development. Expert with Intercom.io (for customer support, acquisition and feedback), Mixpanel, Google Analytics, Invision, the Adobe suite, Github, Rally, Trello, Asana.
- JavaScript, HTML, CSS, LESS, AngularJS, NodeJS, React, Express, Firebase, Mongo

PROFESSIONAL EXPERIENCE

Chief Customer Officer and Product Manager   June 2014 - June 2015

Upswing

- Managed product: a full-featured web application allowing students (**our users**) to get help from tutors via real-time video- and voice-conferencing.
- Ran 2 week iterations with Rally. Daily SCRUM meetings. Helped on the frontend whenever necessary.
- Created a "charter group" of customers to test and later provide public references for our product

Co-founder and Product Manager   January 2012 - June 2014

YourSigma

- Created the initial book of market research, interaction designs, and wireframes.
- Built the YourSigma frontend from scratch using AngularJS, JQuery, and Bootstrap libraries among others.

Project Manager   July 2007 - November 2011

Citigroup

- Managed several high-profile projects: Moved all Citi employees to Citrix Thin Client technologies, and implemented a new system to track all of our software licenses and permissions.

Product Engineer   May 2005 - July 2007

GE Global Research Center

- 6 Patents: 8035523, 20100109873, 20100109871, 20080136733, 20080115589, 20080111667

EDUCATION

Vanderbilt University

- Bachelor's Degrees in Engineering Science and Economics. Minor in Financial Accounting
- Udacity Nanodegree in Data Analysis in progress

ASK ME ABOUT:
